

Graduation Does Not Guarantee Job, We Do...

Learn Interview Earn!!!

The training program offered by us have proven successful for Cellular Operators, telecommunication's equipment manufacturers and service providers. By combining our proven industry experience and industry specific training curriculum, we are able to provide 100% job gaurantee and a successful career in wireless Industry

Why you should get this Training:

- Telecom/ Cellular Engineering is one of the fastest growing Industries
- India has Highest growth rate of cell phone subscribers
- 200 million subscribers 75 million new subscribers added in the last two years
- This growth has created need for – 400 employees to be added per day
- Creation of additional 0.5 million jobs by 2010 and 1.5 million jobs by 2015
- Large no of cellular operators in India
- Nokia-Siemens, Ericsson, Motorola, Alcatel-Lucent have strong presence in India
- Well paid sector, salary from 15,000 to 50,000 per month in few years
- Senior level salaries are as per international standards; 30-50 lakhs/yr within 10 years.
- Opportunity to work on latest technology, quenching technological quest.

What MobileComm Training Package offers:

Our trainers not only understand the technology but they also know how to teach! Our Trainers have relevant experience in network Design and optimization, Field engineering and standard methodologies and procedures.

Our focus is to bring awareness of RF technology to the masses, training them to the specific needs of the telecom industry and assuring employment opportunity.

Our RF basic Package is a 30 day classroom training program
Candidates will be trained on

- Cellular technologies (GSM, CDMA and overview of 3G technologies)
- Cellular network Planning & Design (Site selection to Implementation)
- Industry Specific Network Planning Software tools. (Planet, Asset...)
- Network Performance management and optimization tools. (TEMS, CW)
- Installation and Comissioning (Site build, BTS install, Antenna)

Final Word that's Job Gaurantee:

Our training will open numerous doors for you as an RF engineer.
We are committed to find a suitable job opportunity in the wireless Industry.
We provide 100% money Back gaurantee

“
Fundamentals of RF
RF Drive testing
RF Design & Planning
Planning Tools
Post processing Tools
Network Optimization
Parameter Tuning
GSM basics to Advance
CDMA basics to advance
1xEV-DO, 1xEV-DV
UMTS
WiMax.
 ”

THE MISSION OF MOBILECOMM'S CERTIFICATE TRAINING PROGRAM IS TO HELP OUR CANDIDATES ATTAINING KNOWLEDGE OF CELLULAR INDUSTRY AND WIRELESS TECHNOLOGIES PROVIDING THEM COMPETITIVE EDGE TO SECURE A JOB IN GROWING, HIGHLY PAYING AND RAPIDLY CHANGING TECHNICAL ENVIRONMENT .

COMMITTED TO ISO 9001 CERTIFICATION
