

MobileComm Continues Global Footprint Expansion with New Group Office in India

(MobileComm ACCELERATES EXPANSION IN India)

Attributes its 580% Revenue Growth to commitment to be cost effective without compromising Quality.

Bhopal, Madhya Pradesh, 4th Dec. 2009 - MobileComm Technologies India Private Limited and its parent company MobileComm Professionals Incorporation, U.S.A, continued their expansion in India with the opening of one new Training Center this week in less developed Central region on India, Bhopal, and Madhya Pradesh. The move strengthens MobileComm presence in the region, complementing the company's 25-person engineering center opened in 2008, located in Gurgaon, to a team more than 300 family members scattered across India and Asia Pacific Region.

From today Engineering Graduates in Madhya Pradesh, will be able to get quality and cost effective Telecom Training locally with the establishment of the new Training Center, located in the center of Bhopal. The new facility will provide a strategically important platform for continuous growth of MobileComm in the Central India, with over 80 Engineering colleges, is the largest province.

Last Week, the MobileComm Technologies India Private Limited and MobileComm Professionals Incorporation, U.S.A, officially opened another new Training Center in Bhopal. Located in Madhya Pradesh Province, this center will continue providing quality Telecom Training to fresh Engineering Graduates to make them a better Industry Professional.

“We are excited further to strengthen our presence in Asia and enhance our ability to serve our growing customer base in the region,” said Rajiv Gandhi, MobileComm Technology, and CEO. “Despite a tough global economic climate, we will continue to make the strategic investments in Telecom Education and Service and market expansion to position MobileComm for profitable growth.”
